Important Notes:

The times posted are the times that the teams MUST be dressed, and lined up in the snackbar lobby.

It is going to be very hectic, so everyone's co-operation is required.

Players should NOT wear helmets, and past experience shows that for the photo, the absence of the neck guard produces better results.

Players do need their gloves, and stick.

The Team photo is shot once all the individual photos are done, but we will NOT wait for stragglers.

There is no re-shoot scheduled.
